Mohawk Ltd. Service Commitment

Since 1959, our goal is to bring your commercial and industrial products back to the manufacturer's original operating specifications, with the highest quality and fastest turnaround at a competitive price.

We provide no-fee equipment evaluations so that you can make the best-informed decision for your equipment. We provide logistic support and supply chain management services to support your equipment throughout its life cycle. Our experienced technicians replicate the problem, determine the root cause, conduct a thorough maintenance check, provide a quote, and upon your acceptance, we make the repair. We clean, test operating parameters and return the equipment in "like-new" condition.

As an ISO 9001:2008 certified company and WBENC Diversity Supplier, Mohawk Ltd. operates to defined procedures and processes. From initial customer inquiry, repair, quality control, return shipping and invoicing, our processes are well controlled and documented to maintain the highest quality service for your equipment.
